

Professional Social Workers Association

2013-2014

Get Involved! Get Active!

The PSWA's mission is to support the morale and well-being of social workers across the county by coming together in encouragement and camaraderie; to provide a forum for social workers within DMH to find guidance, support, and to promote social work ideals and ethics within the department. We the 2013-2014 Board Members are motivated and enthusiastic to be part of this Professional Social Workers Association (PSWA) which began in 1989 with the purpose of being both a support and action group.

As your new Board for this year 2013-2014, we are here to continue the tradition of providing you with the necessary support and guidance to navigate our mental health system. We look forward to meeting PSWA members as well as new members at our PSWA meetings. In addition to our PSWA meetings, we are in the process of planning various fundraising activities for our upcoming Annual Luncheon at the California Endowment Center in March 2014. A holiday mixer will complete the year 2013 for the purpose of creating a much larger and stronger networking system by 2014.

Come out and join us at our next PSWA meeting in October.
